

## Embracing Diversity Week

8 – 12<sup>th</sup> November 2015

Al Hussan International School, Girls section celebrated Cultural Diversity Week under the counselling campaign. As we live in a multi-cultural society where our students interact and communicate with each other very frequently, this campaign gave our students a chance to

learn more about each other's language, culture, traditions and norms.

Through this campaign we all learn and accept each other with all the differences. We spread awareness in our students about tolerance, acceptance, resilience and forbearance to work with each other peacefully and happily.

Various activities have been organized for this week. Many students participated in a poster competition. A cultural show was presented throughout the week in morning

assemblies. On Thursday, the campaign was concluded on a high note with cultural food exhibit. Students shared

traditional foods with their teachers and exchanged their recipes. Grade 3- 5 performed an assembly on a peace song.
