A Visit to Spread Laughters among Children with Down's syndrome

Grade 12 Field Trip

Students of Grade 12 H, Girls Section, set off to Al Khobar day care center on 19th November, 2015 to spread happiness and laughters among special children. They organize several colourful activities, bought gifts and baked sweet treats for them. Girls were accompanied by Ms. Saira Muhammad and Ms. Sadaf Saeed.

Some girls lay the tables for face painting, free hand painting and play dough activities. There were six students who entertained children as clowns. They played with them and sang songs as well. All the students showed their affection by serving the children with beautifully wrapped gifts and balloons. Children were over joyed and seem delighted to receive bundles of treats. Lastly, they served them food that the kids thoroughly enjoyed! Students' efforts were appreciated by presenting a certificate from Al Khobar Daycare center. It was indeed a life time experience for girls that they will never forget.
