Students' introductions on JAM online forum

Students research project on their countries

International Intercultural Mural Exchange

Student of Grade 6H are working on Japan Art Mile project in collaboration with their teachers Mrs. Shadia Khalil (English) and Mrs. Hadeer Mokhtar (Art) under the supervision of Mrs. Saira Muhammad.

Students are collaborating with the students of Kanonji elementary School Japan.

Students interact with each other through JAM forum in which teachers post their introductions, their research on cultures and countries.

The theme they are working on is festivals and cultures. Students will discuss and design the pattern for the mural they will paint along with their partner students from Japan. Our students will receive a half painted mural from Japan and will complete the other half under the guidance of their art teacher.
